PASTIFICIO CASA PRENCIPE | HIGH PURITY PASTA

THE MOUNTAIN *Pasta Factory*

Casa Prencipe is the organic pasta factory of the Gargano (Best Italian Organic Pasta Factory 2022 - Lux Life Magazine).

We have chosen to use only supply chain raw materials, clean renewable energy and 100% recyclable packaging.

Our laboratory is located in a beautiful mountain valley: the **"Carbonara Valley"**

immersed in the uncontaminated nature of the Gargano National Park (Southern of Italy).

An enchanting place out of time, where everything flows more slowly.

Here we produce High Purity Pasta using traditional techniques and simple ingredients.

Only pure water, organic semolina and mountain air.

OUR Story

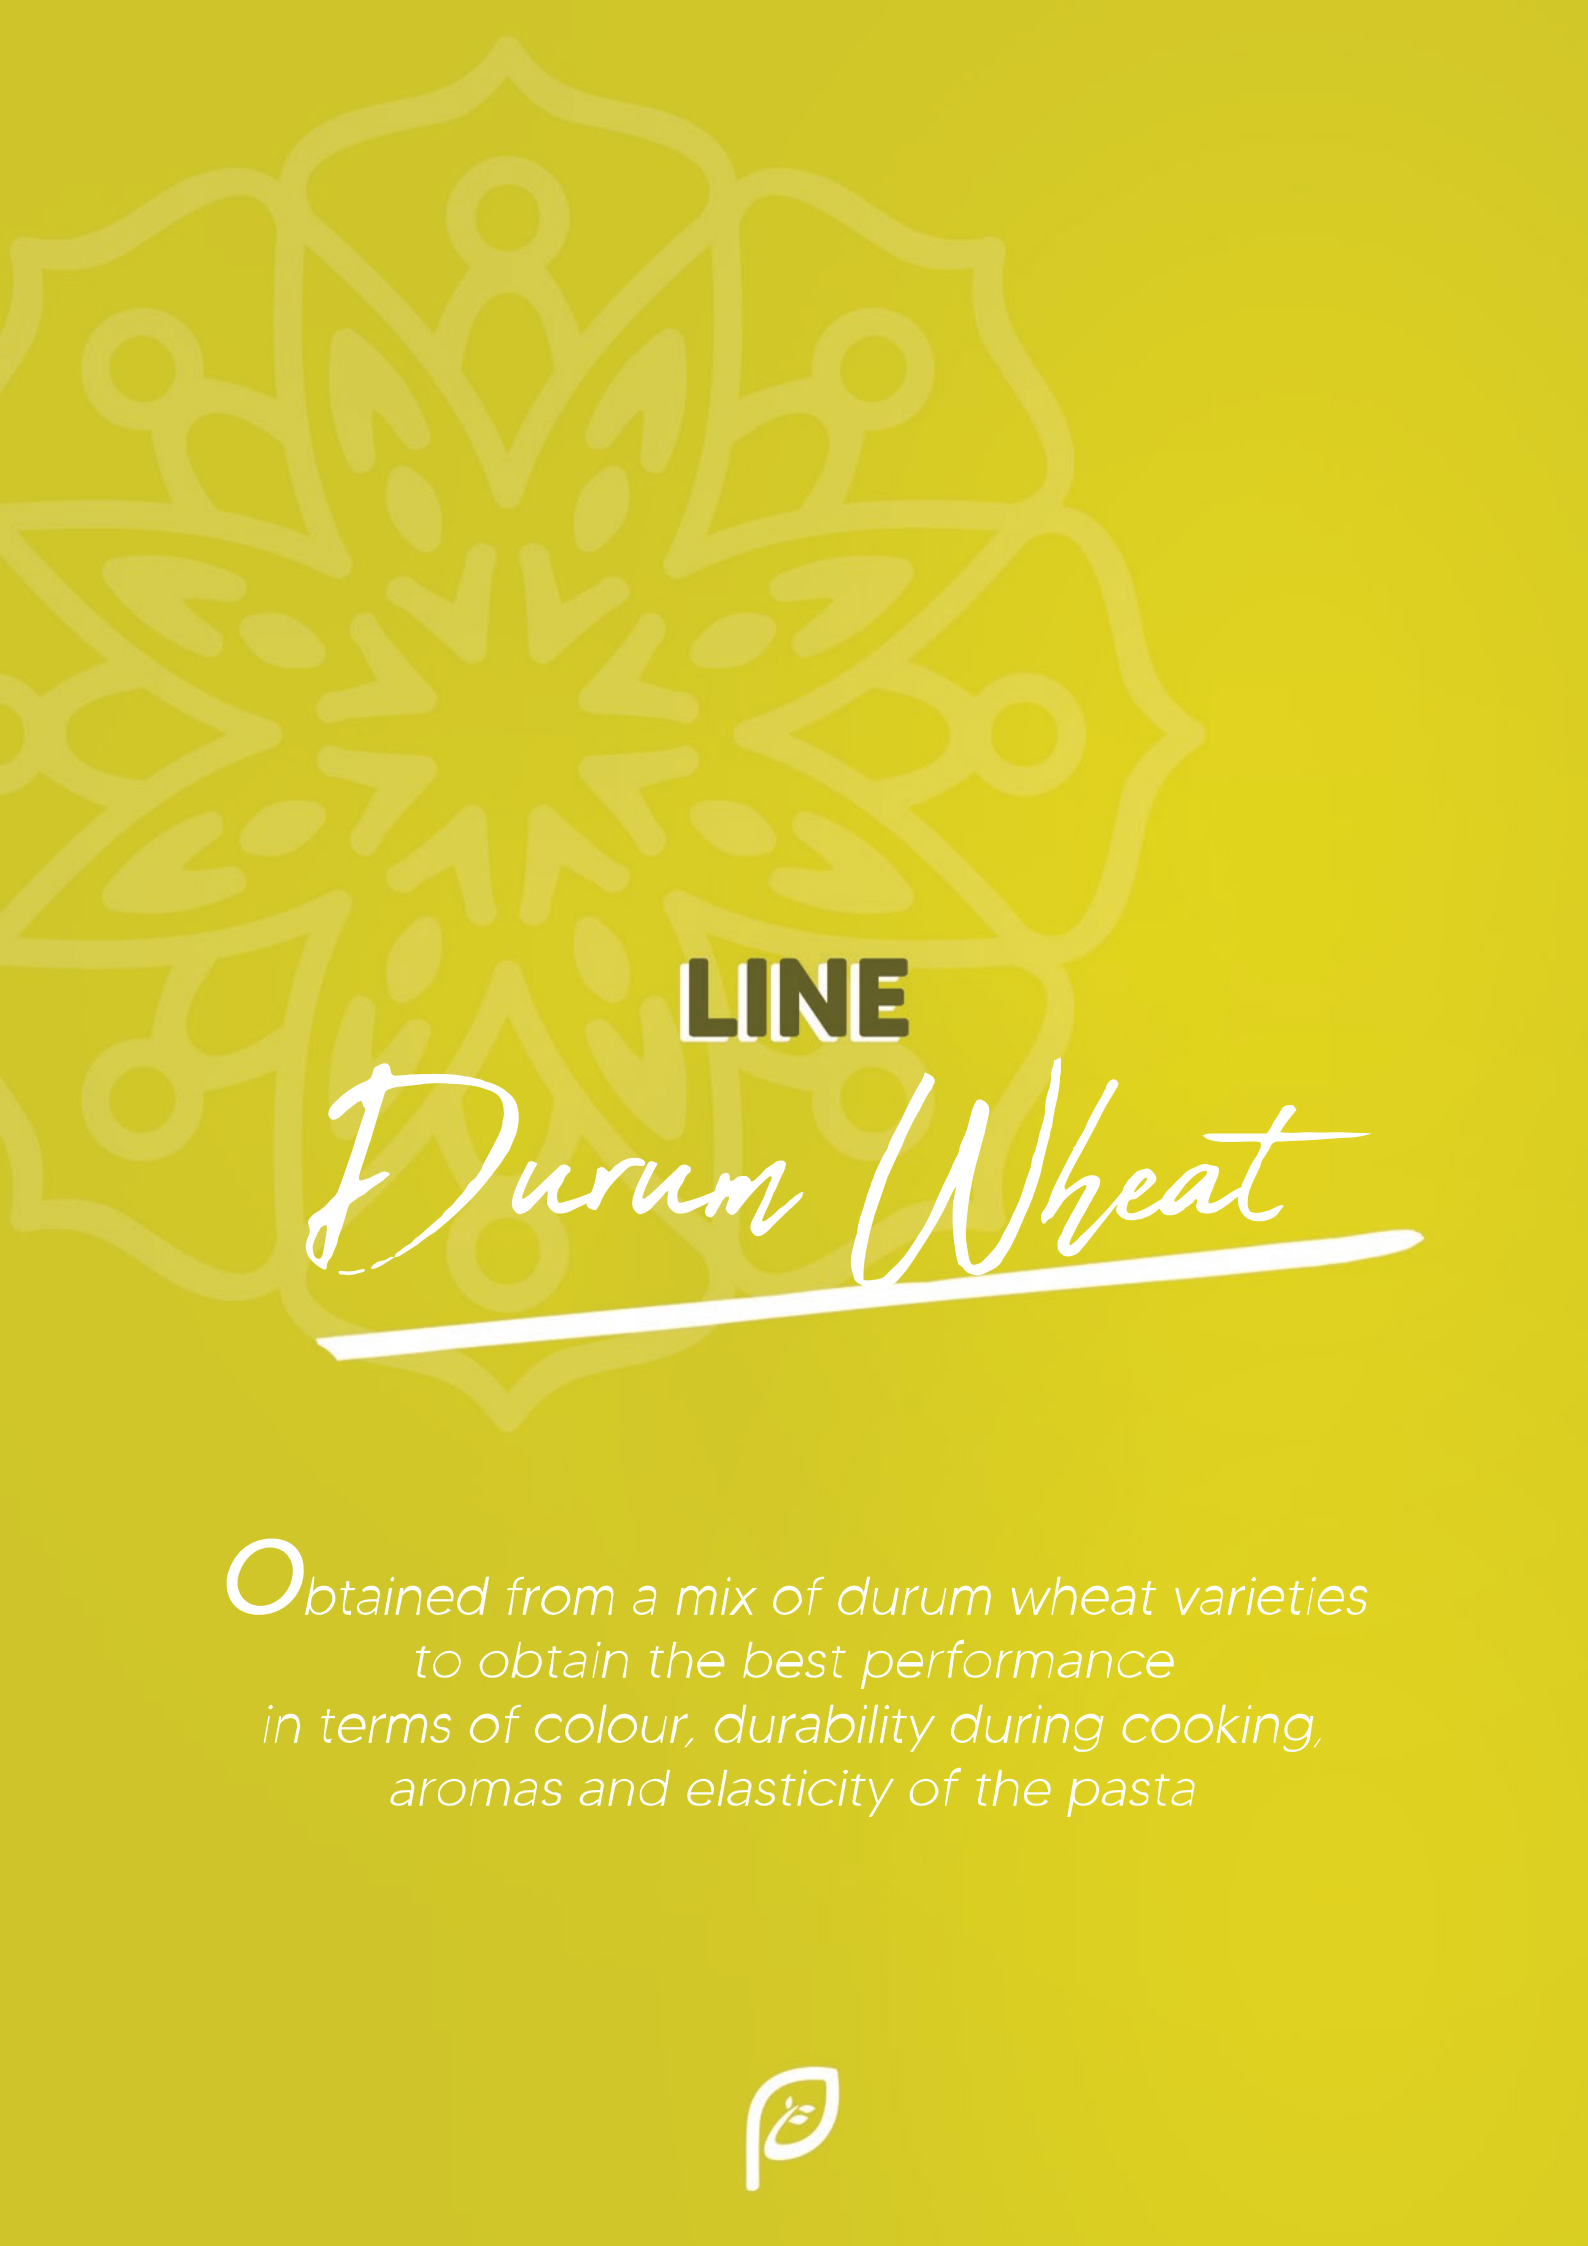

We are a young company born from the dream of Giovanna and Domenico. A couple with a common vision: to return home, to the Gargano, with the aim of producing the best Durum Wheat Pasta in the world.

To do this we started to adopt abandoned lands,

converted to the production of durum wheat with the collaboration of small local farms.

This allows us to prepare a "true kilometre" product, with attention to the smallest details by expert hands in an uncontaminated area in the heart of the Gargano National Park.

LINE

Durum Wheat

Obtained from a mix of durum wheat varieties
to obtain the best performance
in terms of colour, durability during cooking,
aromas and elasticity of the pasta
